I'm a passionate cybersecurity and privacy enthusiast with a focus on penetration testing. I'm a new graduate of the Bachelor of Science in Cybersecurity program at Wilmington University, and a US Army veteran experienced in maintaining drones. My goal-oriented and highly motivated approach drives my addiction to learning and researching cybersecurity every day. I aspire to build a successful career in cybersecurity to help organizations stay protected from cyber threats.

Education

WILMINGTON UNIVERSITY   03/2019 – 06/2024
Bachelor of Science in Cybersecurity

Cybersecurity Experience

SOC TIER 2 ANALYST CONTRACTOR AT BLACKROCK – THE ALLERE GROUP   October 2024 – April 2024
- Collect, analyze, and visualize security incident data contributing to key risk indicators and trends analysis to better inform security countermeasures.
- Deep dive into the threat landscape, including threats and vulnerabilities, as well as the impact of these issues on the firm.
- Identify root cause and develop remediation plans to address identified vulnerabilities and security incidents.

DLP ANALYST CONTRACTOR FOR BLACKROCK – THE ALLERE GROUP   August 2023 – October 2024
- Monitor alerts from DLP and UBA systems, responding promptly to potential threats.
- Analyze system logs for abnormal user activity, taking swift action to prevent further damage.
- Collaborate with cross-functional teams to investigate and resolve incidents, including data-loss breaches, and implement remediation measures.

WILMINGTON UNIVERSITY CYBERSECURITY FEDERAL WORK STUDY   March 2023 – August 2023
- Planned out how to improve university's network and systems
- Researched how NetBox works and how to incorporate it into the university's network
- Conducted tests and experiments on new tools to potentially introduce to university's network

WILMINGTON UNIVERSITY CYBER WILDCATS   August 2022 – June 2024
- Demonstrated effective teamwork and problem-solving skills by collaborating closely with cybersecurity specialists during lectures, labs, and CTFs.
- Built a home lab to experiment with Penetration Testing Tools and various projects.
- Hosted Zoom meetings for collaborative Hack The Box and Try Hack Me challenges, demonstrating leadership skills and contributing to successful task completion.

Certifications

TestOut	PC Pro Certification
	Security Pro Certification
	Server Pro 2016: Install and Storage Certification
CompTIA	A+ Certification (in progress)
	Security+ Certification (in progress)
	Network+ Certification (in progress)

Professional Experience

SOC TIER 2 ANALYST   October 2024 – April 2024
Analyst Contractor
- Collect, analyze, and visualize security incident data contributing to key risk indicators and trends analysis to better inform security countermeasures.
- Deep dive into the threat landscape, including threats and vulnerabilities, as well as the impact of these issues on the firm.
- Identify root cause and develop remediation plans to address identified vulnerabilities and security incidents.

CYBER DATA PROTECTION ANALYST   August 2023 – October 2024
Analyst Contractor
- Monitor alerts from DLP and UBA systems, responding promptly to potential threats.
- Analyze system logs for abnormal user activity, taking swift action to prevent further damage.
- Collaborate with cross-functional teams to investigate and resolve incidents, including data-loss breaches, and implement remediation measures.

UNITED STATES ARMED FORCES - ARMY   January 2015 – December 2016
UAS Maintainer
- Worked with cutting-edge technology and surveillance.
- Maintained unmanned aircraft by following procedures in accordance with the Army Regulations
- Troubleshoot and repair electrical, avionics, propulsion, communications, takeoff and landing, and fuel systems.
